

# DOCUMENTATION MANAGER

## Product Data Sheet

Documentation Manager lets you record, track and report on anything from anchors to firestop penetrations – regardless of manufacturer – with the click of a button.

## KEY FEATURES

- User-friendly desktop and mobile interface
- Cloud-based with offline capabilities
- Works with QR codes for easier data management
- Unlimited users
- Floor-plan navigation and as-built marking
- Can be used to record any installation regardless of manufacturer
- Compatible with both Android and iOS devices

Save time. Recording can be done simultaneously by multiple users across different projects. Generate comprehensive reports in a matter of minutes complete with photos, marked-up floor plans, system details and approval documents
